

Computer Lab and Wireless Access

Computer Lab - Computer Use Policy

The library provides computers for Internet access and a variety of software including Word, Excel, Power Point, Access and Publisher. Twelve computers are for adults and five for children.

There is no fee to use the terminals however we ask that you limit use to 30-minutes when others are waiting for the computer. Before using the computers, please sign in and read our Internet use policy. Sign out when you finish; this helps us facilitate your use of the computers.

A black and white and a color printer are networked to the library computers. Black and white prints are 15¢ per page and color prints are 50¢ per page. Scanner services are also available: \$1.00 for 6 pages. Wireless Internet Access

We have wireless Internet hot spots using standard 802.11b throughout the library. Internet hot spots are also available at the front and rear patios, the reading, meeting, and audiovisual rooms, the computer lab and the children's computer lab for patrons who bring their own appropriately equipped device. The hot spot on the front patio is available 24/7.
